## **DETAILED ACTION**

### ***Status of Claims***

Claims 1, 13-15, 18 and 19 are currently amended, Claims 2-10, 12, 16 and 17 are as previously presented, Claim 11 is cancelled and Claim 20 is new.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 3, 4, 6-10, 15, 16 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over GB 885,503.

GB '503 is applied as discussed in the office action mailed 3 September 2008. With respect to new Claim 20, the amended feature of the temperature difference that is present over the length of the layer of metal, wherein the higher temperature being present at an end of the metal layer to which the crystals are transported is obvious over GB '503. However, GB '503 is silent with respect to the temperature. Since the behavior of the crystals in GB '503 is the same as that claimed, it would have been obvious to one of ordinary skill in the art at the time the invention was made to expect that the temperature gradient would also be the same.

***Allowable Subject Matter***

Claims 2, 5, 11, 12, 17 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 19 is allowed.

The reasons for allowable subject matter are discussed in the office action mailed 3 September 2008.

***Response to Arguments***

The rejections under 35 U.S.C. 112 first and second paragraphs are in light of the amendment filed 6 November 2008. The examiner notes that applicant does not argue the rejections of Claims 1, 3, 4, 6-10, 15 and 16 under 35 U.S.C. 103(a) over GB 885,503, which is maintained.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
